

CONTENTS	PAGES
Pushover Analysis of Reinforced Concrete Building with Vertical Shear Link Steel Braces <i>Seyed Hamed Hosseini, Suhaimi Abu Bakar, Kamyar Bagherinejad &amp; Emad Hosseinpour</i>	169-179
Predicting ASR Long Term Expansion Through Existing Test Method <i>Enamur R. Latifee &amp; Md Rashedul Kabir</i>	180-192
Mathematical Psychiatry of Field Plate Load Test Using Finite Element Method <i>K. Shiva Prashanth Kumar &amp; Temesgen Wakweya Anbesa</i>	193-203
Numerical Evaluation of Unsaturated Flow in Porous Media Using Iterative Techniques for Various Soils <i>M. Sayful Islam</i>	204-222
Investigation of Palm Kernel Shell as Partial Replacement for Aggregate in Asphaltic Concrete <i>Olugbenga Joseph Oyedepo, Lekan Makanju Olanitori &amp; Ebenezer Omoniyi Olukanni</i>	223-234
Heritage Buildings Conservation and Environmental Sustainability: A Correlation Analysis for Sustainable Development in Nigeria <i>Anthony O. Ujene1 &amp; Uche E. Edike</i>	235-249
Effect of Partial Replacement of Aggregates by Recycled Concrete Debris on Strength of Concrete <i>S. Muthu Lakshmi &amp; R. R. Nivedhitha</i>	250-259
Modeling Residual Strength of Palm Kernel Shell Concrete Using The Ultrasonic Pulse Velocity for Rigid Pavement Maintenance <i>Ibrahim Tunde Yusuf &amp; Yinusa Alaro Jimoh</i>	260-274

Material Flow Analysis and Awareness on E-Waste Management <i>Gautam Lalit Shah, Mohd Badruddin Mohd Yusof &amp; Ng Ga Ming</i>	275-289
Interrelation Among Pertinent Elements of Critical Thinking and Mathematical Thinking in The Real-World Practice of Civil Engineering <i>Sharifah Osman, Salleh Abu, Shahrin Mohammad &amp; Mahani Mokhtar</i>	290-304
REVIEW PAPER A Review of Damage Case Histories and Methods for The Protection of Underground Structures in Case of Earthquake and Blast Loads <i>Azlan Adnan, Yousef Karimi Vahed, Norazah Arjuna &amp; Babak Farmanbordar</i>	305-320
TECHNICAL NOTE Spatial Information Model for Location Assessment of Temporary Landfill Sites (TLS) in Madiun City <i>M. Arif Bakhtiar E. &amp; Seno Aji</i>	321-335
