Embedding Google Calendar

1. Login to your gmail and then choose Calendar

2. Choose My calendars > Calendar Setting
3. Copy URL of your embed code for Calendar  
(NOTED: Only copy the URL not the whole embed code)

4. Go to your Dashboard, click Pages > All Pages. Then find Calendar and click to edit.

5. Insert this code into your Page, then replace the # with your Calendar URL. After that click Update.

[iframe src="#" width="100%" height="480"]
6. It will give a result like this in your Page.
