

CONTENTS	PAGES
Comparative Study of Large Diameter Bored Pile Under Conventional Static Load Test and Bi-Directional Load Test <i>Vinsensius Viktor Limas &amp; Paulus P. Rahardjo</i>	1-18
Comparison of Noise Prediction and Measurement from Construction Sites <i>Nadirah Darus, Zaiton Haron &amp; Khairulzan Yahya</i>	19-33
Effect of Fine-Grained Soil Layer Thickness on the Performance of Modified Capillary Barrier System <i>Gambo Haruna Yunusa, Azman Kassim, &amp; Nurly Gofar</i>	34-56
Performance of Connections Adhesive-Bonded for Cold-Formed Steel <i>Rackford Bong &amp; Mohd Hanim Osman</i>	57-67
Comparison between the Vibration Performance of LVL-Concrete Composite (LCC) Flooring System Made of Malaysian & New Zealand LVL <i>Lee Yen Fong, Nor Hayati Abd. Ghafar, Norashidah Abd Rahman, Massimo Fragiaco, Zainah Ibrahim &amp; Andrew Buchanan</i>	68-80
Point Load Testing of Flexural Behavior of Segmented Tunnel Lining <i>Siti Norafida Jusoh, Hisham Mohamad, Aminaton Marto &amp; Nor Zurairahetty Mohd Yunus</i>	81-92
The Predilection of Water and Generic Filter as a Medium for Urban Build-Up Sampling <i>Mahadi Lawan Yakubu &amp; Zulkifli Yusop</i>	93-102
Free-Flow Speed on Two-Lane Rural Highways: An Empirical Evaluation of Estimation Models <i>Usman Tasiu Abdurrahman, Othman Che Puan &amp; Muttaka Na'iyah Ibrahim</i>	103-111
Interaction Between Bedding Sand Thickness and Shell Groove-Underside Shaped Concrete Block Pavement <i>Azman Mohamed, Hasan Md Nor, Mohd Rosli Hainin, Haryati Yaacob, Che Ros Ismail &amp; Nur Hafizah Abd Khalid</i>	112-124

Interaction between Cold-Formed Steel and Lightweight Foamed Concrete with Various Cement Content <i>Cher Siang Tan, Yee Ling Lee, Shahrin Mohammad, Siong Kang Lim &amp; Yeong Huei Lee</i>	125-137
An Evaluation of the Relationship between Fresh Properties of Self-Consolidating Concrete Incorporating Blended Palm Oil Fuel Ash and Pulverized Burnt Clay <i>Ibrahim Ogiri Hassan, Taliat Ola Yusuf, Ainul Haezah Noruzman, Parham Forouzani &amp; Mohammad Ismail</i>	138-154
Properties of Industrial Boiler Ash as Sand Replacement and Thermal Improvement in Aerated Concrete <i>Eeydzah Aminudin, Mohd Fadhil Md. Din, Mohd Warid Hussin, Kenzo Iwao, Ponraj Mohanadoss &amp; Yo Ichikawa</i>	155-169
Performance of Aerated Concrete Incorporating By-Product from Agro-Industry in Sulphuric Acid <i>Taha Mehmannaavaz, Mohammad Ismail, P. Forouzani, I.O. Hassan, Seyed Mahdi Sajjadi &amp; Mostafa Samadi</i>	170-177
Long-Term Response Prediction of Integral Abutment Bridge under Time-Dependent Effect <i>Akilu Muhammad, Redzuan Abdullah &amp; Moh'd Salleh Yassin</i>	178-194
Decolorization of Reactive Dyes by Consortia of Bacteria and Fungi <i>Ameer Badr Khudhair, Tony Hadibarata &amp; Abdull Rahim Mohd Yusoff</i>	195-206
TECHNICAL NOTE Flexural Timber Design to Eurocode 5 and the Malaysian Timber Code MS 544: 2001 <i>Shujaatullah Sheikh &amp; Yusof Ahmad</i>	207-223
REVIEW PAPER Effect of Placement Depth of Geocell Reinforcement in Sand Deposit: A Review <i>Aminaton Marto, Mohsen Oghabi &amp; Nor Zurairahetty Mohd Yunus</i>	224-234
