

CONTENTS	PAGES
Structural Performance of Strengthened Box Steel Beams with Composite Materials <i>Boshra Eltaly</i>	1-19
Maximum Scour Depth at Submerged Skewed Bridge and Pier <i>Amirsaeed Farhangi, Ahmad Mohammad Ali Thamer, Abdul Halim Ghazali &amp; Badronnisa Yusuf</i>	20-34
A Baseline Study of Tropical Phytoplankton Abundance and Its Relationships to The Environmental Variables in The Terengganu River Estuary, Malaysia <i>Lee Hin Lee, Fredolin Tangang, Fatimah Md Yusoff, Zelina Z. Ibrahim, Mohd Fadhil Kasim &amp; Mohd Afzaihelmi</i>	35-49
The Characteristics of Brick Aggregate Concrete on A Basis of Dry Density and Durability <i>Shohana Iffat</i>	50-58
Behaviour of Self-Drilling Screw Upon Single Shear Loading on Cold Formed Steel <i>Hazlan Abdul Hamid &amp; Mohammad Iqbal Shah Harsad</i>	59-68
Finite Element Simulation of Space Trusses Under Seismic Loads <i>Hala Bakr, Boshra Eltaly, Maher Elabd, &amp; Kameel Kandil</i>	69-90
Behaviours of Field Soilcrete Created by A Light Weight Equipment System to Reinforce An Earth Levee in Vietnam <i>Hoang-Hung Tran-Nguyen, Bao Khac Le &amp; Long Phi Le</i>	91-107
Earthquake Response Analysis of A Multistoried RC Building Under Equivalent Static and Dynamic Loading as Per Bangladesh National Building Code 2006 <i>Zasiah Tafheem, Johnul Islam Jihan, Tameem Samdane, Md. Zahidul Islam &amp; Abu Syed Md. Tarin</i>	108-123
An Experimental Factorial Design for ASR Mitigation With Fly Ash <i>Enamur R. Latif</i>	124-138

REVIEW PAPER

139-154

Feasibility Study of Industrial Jarosite Waste As Vital Material for  
Construction: Positive And Negative Aspects
