Faculty of Engineering Student Affairs Bulletin

## Malaysia Industrial Mathematical Modelling Challenge 2020 (MIMMC2020)

**1<sup>st</sup> Place**

**Nur Hafizah Abd Khalid  
Muhammad Iqbal Haikal Samia'an  
Chan Yin Kuan  
Tong Xin Jo**

&

**3<sup>rd</sup> Place**

**Mastura Ab Wahid  
Ten Jia Yee  
Hong Pui Yee  
Lee Jia Long**

**Congratulations** to the students of Faculty of Engineering who participated and were placed first and third in the Malaysia Industrial Mathematical Modelling Challenge 2020 (MIMMC2020).

The team of students that won 1<sup>st</sup> and 3<sup>rd</sup> place in MIMMC2020

## World Technology Universities Network (WTUN) Student Competition

**Four students** from Faculty of Engineering, **Tay Zhi Hui** (School of Computing), **Yap Zhen Shyong** (School of Civil Engineering), **Tay Zhi Xin** and **Liew Wen Ching** (School of Chemical and Energy Engineering) participated and won the first place in the World Technology Universities Network (WTUN) Student Competition 2020. Congratulations!

Students from SC, SKA & SKT won the 1<sup>st</sup> place

# PEKA Organized Kopi Chat Internship Experience

**KOPI CHAT:  
INTERNSHIP EXPERIENCE**

Kerja Raya

**UTM** UNIVERSITI TEKNOLOGI MALAYSIA  
**PEKA**

\*Merit UTM will be given to all participants

**July 17** - Persatuan Kejuruteraan Awam Universiti Teknologi Malaysia (PEKA UTM), a student society under School of Civil Engineering (SKA) has auspiciously organized an event called “Kopi Chat: Internship Experience”. Three seniors, Adilla Syafiqah, Aiman Sulaiman and Izham Zuhairy, fourth year students of SKA have been invited as the speakers to share their experiences, challenges as well as tips on how to excel during internship.

During the session, the speakers talked about their responsibilities and roles, employer’s expectations, and technical knowledge that they have gained throughout their internship journey. They also shared their daily life routine and their work environment. On top of that, the panelists discussed about the strategies they took to adapt to the new work environment and tips for other students to ace their internship. Other gems shared are their lessons learned from the challenges that they have faced. Indeed, the sharing session could help many students to prepare for their internship.
