

# Faculty of Engineering

Universiti Teknologi Malaysia

**PRISMS (Program Integrasi Ijazah Sarjana Muda – Sarjana)  
by Courseworks Integrated Mode**

**Calling all Third Year – Second Semester  
(Session 2019/2020) Students  
with CGPA 3.3 and above**

**Plan Your Future  
Join our PRISMS  
by Courseworks and  
Get 2 Degrees in 5 Years**

1. PRISMS is a programme that integrates undergraduate high-level elective 5### courses with Master courses.
2. Under PRISMS programme, students have the opportunity to complete the Bachelor and Master Degrees in 5 years.
3. Plan the Master Degree programme that you intend to specialise and enrol in the future.
4. Choose the high-level elective courses with course code 5#### that are equivalent to the core courses of the Master degree program that you plan to enrol. Refer the list of these courses in Appendix 1.
5. You can choose maximum up to 12 credits of 5### elective courses during your 4th year study.

6. **Two degrees in 5 years.** After completing the 4-year undergraduate degree programme, you can enrol into the Master programme and eligible for the vertical credit transfer of the 5### courses. You are exempted from taking the Master courses equivalent to the transferable 5### courses. Hence, you should be able to complete the Master degree for another 1 year.
7. The maximum credit allowed for the vertical credit transfer is 12 credits.
8. You can enrol the Master degree at any time in the future and still eligible for the vertical credit transfer for the 5### courses.
9. The list of 5### undergraduate elective courses that are mapped to equivalent Master courses of the respective Master Degree programmes are listed in [Appendix 1](#).

### **Who Can Apply**

Third Year - Second Semester students with the current Cumulative Grade Point Average (CGPA) of 3.3 and above.

### **When to Apply**

Apply Now

### **How to Apply**

**Application of PRISM During COVID-19 Pandemic:** Apply online using the respective links below:

1. [School of Biomedical Engineering and Health Sciences - SKBSK](#)
2. [School of Civil Engineering – SKA](#)
3. [School of Computing – SC](#)
4. [School of Chemical and Energy Engineering - SKT](#)
5. [School of Electrical Engineering - SKE](#)
6. [School of Mechanical Engineering – SKM](#)

**NOTE:**

1. Once the application to join PRISMS programme is approved, students can register for the 5### elective courses.
2. Registration of the elective 5### courses can be done during the course pre-registration or compulsory registration period.
3. Once registered, attend the 5### classes in Year 4 – Semesters 1 and 2, according to the respective study plan.
